Experiment 4

Library Book Reservation System using Zoho Creator

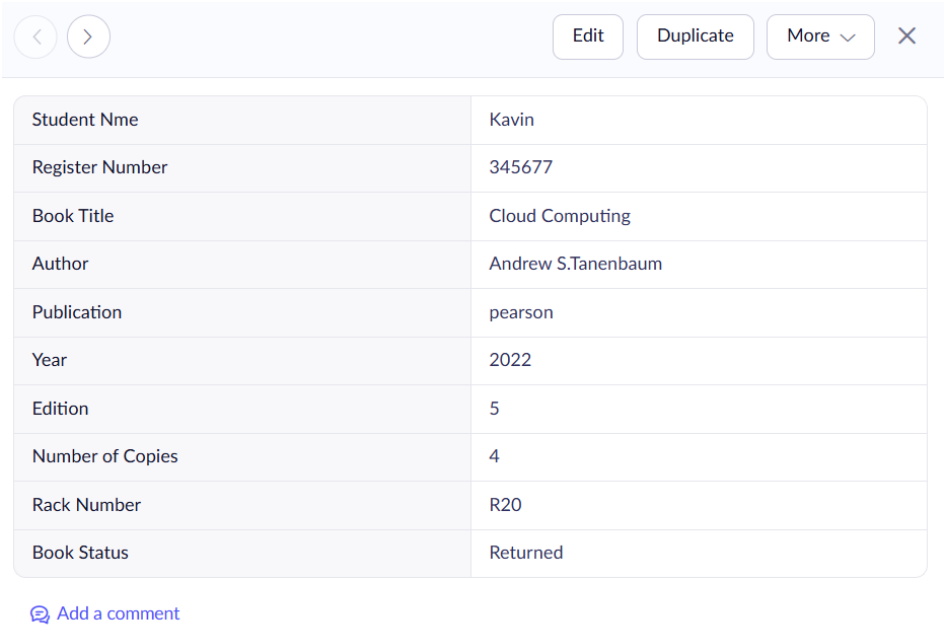

Aim:

To create a simple cloud-based Library Book Reservation System for SIMATS Library using Zoho Creator to demonstrate Software as a Service (SaaS).

Procedure:

1. Open Zoho Creator and create a new application named SIMATS Library Book Reservation System.
2. Create a form named Library Book Details.
3. Add fields for student name, register number, book title, author, publication, year, edition, number of copies, rack number and book status.
4. Configure the Book Status dropdown with Available, Taken and Returned.
5. Save the form and enter sample book details.
6. Submit the form and verify the saved records in the report.

Input:

Edit Duplicate More

Student Nme	Sarika
Register Number	192521041
Book Title	DBMS
Author	Korth
Publication	McGraw Hill
Year	2023
Edition	2
Number of Copies	2
Rack Number	R15
Book Status	Taken

Add a comment

Edit Duplicate More

Student Nme	Parthiba
Register Number	192521039
Book Title	java programming
Author	Herbert Schildt
Publication	MCgraw hill
Year	2024
Edition	1
Number of Copies	3
Rack Number	R12
Book Status	Available

Add a comment

Output:

All Library Book Details

Student Nme	Register Number	Book Title	Author	Publication	Year	Edition
Kavin	345677	Cloud Computing	Andrew S.Tanenbaum	pearson	2022	5
Sarika	192521041	DBMS	Korth	McGraw Hill	2023	2
Parthiba	192521039	java programming	Herbert Schildt	MCgraw hill	2024	1

Result:

Thus, a simple cloud-based Library Book Reservation System was created successfully using Zoho Creator. The application stores library book details and their availability status in the cloud.
