Experiment 6:

Payroll Processing System using Zoho Creator

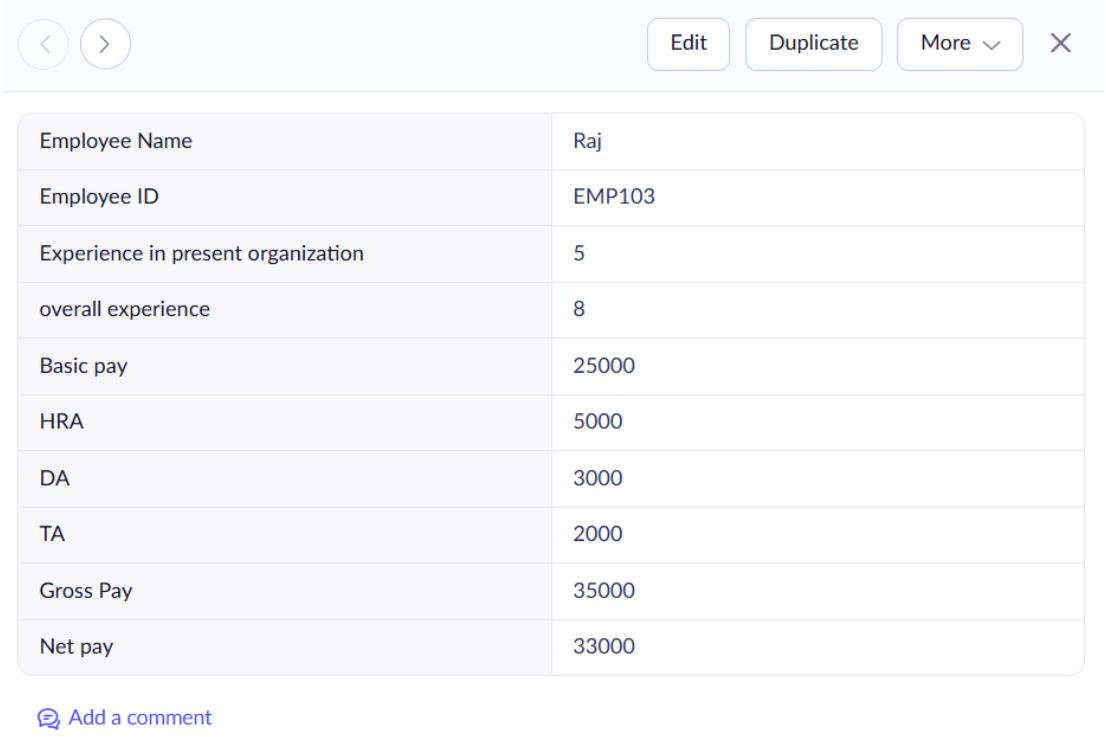

Aim:

To create a simple cloud-based Payroll Processing System using Zoho Creator to demonstrate Software as a Service (SaaS).

Procedure:

1. Open Zoho Creator and create an application named Payroll Processing System.
2. Create a form named Employee Payroll.
3. Add fields for employee name, employee ID, experience, basic pay, HRA, DA, TA, gross pay and net pay.
4. Configure the fields and enter employee salary details.
5. Save the form and submit the employee information.
6. Open the report and verify the saved payroll records.

Input:

Edit Duplicate More

Employee Name	Sri
Employee ID	EMP102
Experience in present organization	2
overall experience	4
Basic pay	30000
HRA	6000
DA	4000
TA	2000
Gross Pay	42000
Net pay	39000

Add a comment

O

Edit Duplicate More

Employee Name	Arun
Employee ID	EMP101
Experience in present organization	3
overall experience	5
Basic pay	25000
HRA	5000
DA	3000
TA	2000
Gross Pay	35000
Net pay	33000

Add a comment

Output:

Employee payroll Report

Employee Name	Employee ID	Experience in present organization	overall experience	Basic pay	HRA	DA
Raj	EMP103	5	8	25000	5000	3000
Sri	EMP102	2	4	30000	6000	4000
Arun	EMP101	3	5	25000	5000	3000

Result:

Thus, a simple cloud-based Payroll Processing System was created successfully using Zoho Creator. The application collects employee details and salary information and stores the records in the cloud.
