Experiment 05

Processing Mark Sheet

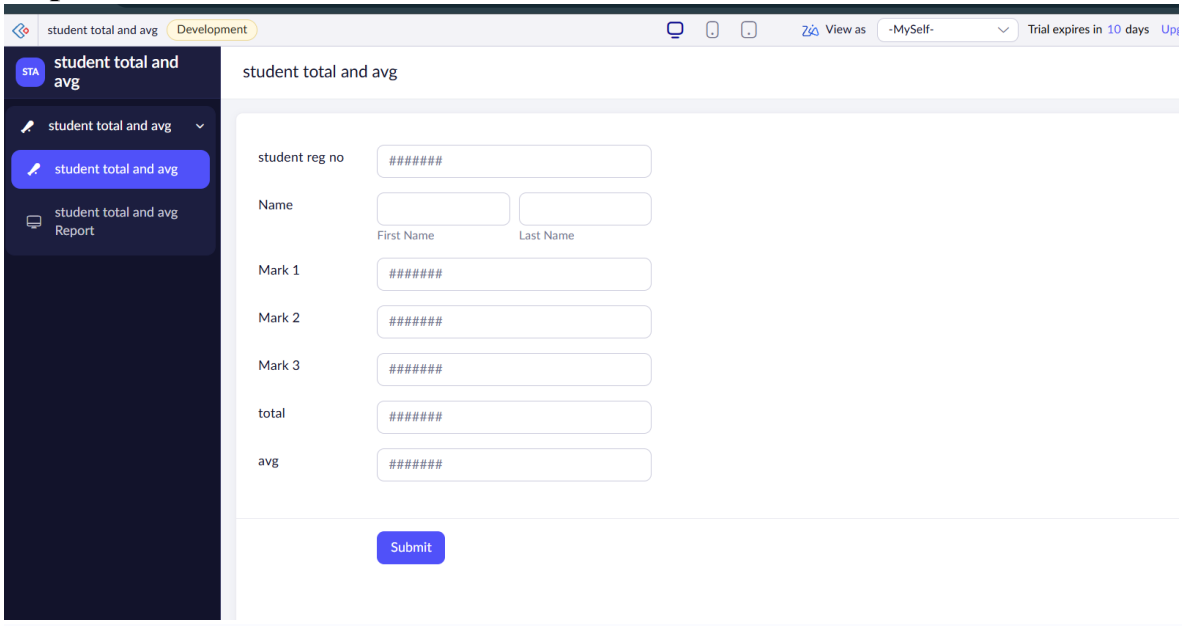

Aim:

To create a simple cloud-based Mark Sheet Processing System using Zoho Creator to demonstrate Software as a Service (SaaS).

Procedure:

1. Open Zoho Creator and sign in using your account.
2. Create a new application named **Mark Sheet Processing System**.
3. Create a form named **Student Mark Sheet**.
4. Add fields such as Student Name, Register Number, Subject 1 Marks, Subject 2 Marks, Subject 3 Marks, Total Marks, Average, Percentage, Rank, and Overall Performance.
5. Configure the fields and enter the student's marks.
6. Save the form and submit the student details.
7. View the submitted records in the report to verify that the data is stored in the cloud

Implementation

Input

Result:

Thus, a simple cloud-based Mark Sheet Processing System was created successfully using Zoho Creator to demonstrate SaaS. The application collects student details and marks and stores the records in the cloud.
