Experiment 1:

Flight Reservation System Using Zoho Creator

Aim:

To create a simple cloud-based Flight Reservation System using Zoho Creator to demonstrate Software as a Service (SaaS).

Procedure:

1. Open Zoho Creator and sign in using your account.
2. Create a new application named **Flight Reservation System**.
3. Create a form named **Flight Booking**.
4. Add fields such as Passenger Name, Email Address, Trip Type, Flight Category, From, To, Departure Date, Return Date, Travelers, Fare Type, and Travel Class.
5. Configure the choices for radio buttons and dropdown fields.
6. Save the form and enter sample passenger and flight details.
7. Submit the form and open the report to verify that the reservation details are stored in the cloud.

Input:

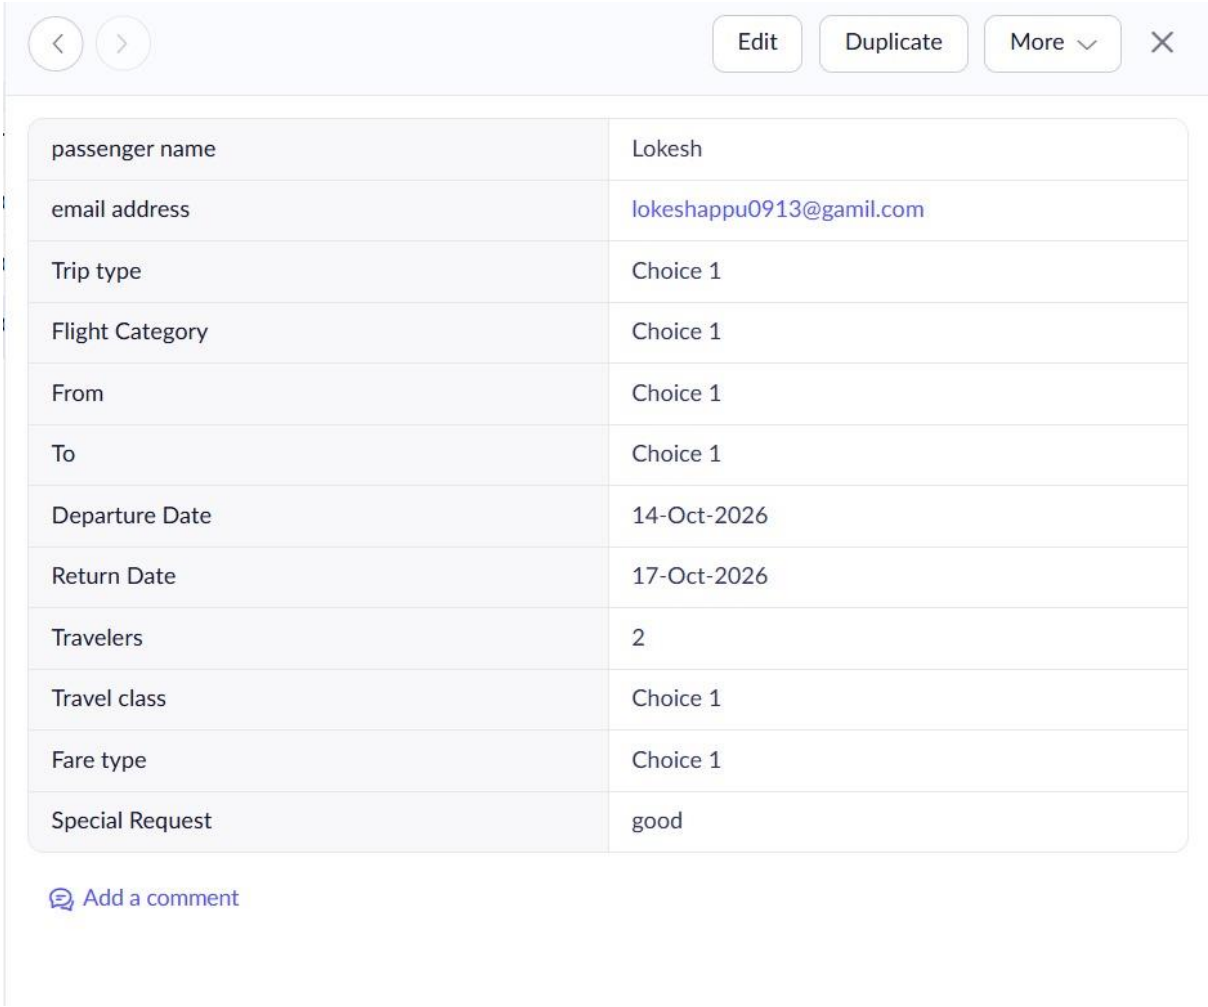

passenger name	Kaviya
email address	kaviyadeepa@gamil.com
Trip type	Choice 3
Flight Category	Choice 3
From	Choice 3
To	Choice 3
Departure Date	20-Oct-2026
Return Date	24-Oct-2026
Travelers	1
Travel class	Choice 3
Fare type	Choice 3
Special Request	Good

Add a comment

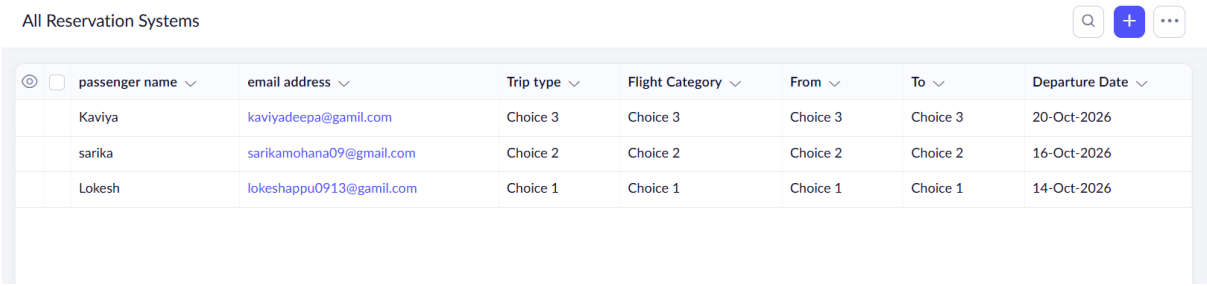

Edit Duplicate More

passenger name	Lokesh
email address	lokeshappu0913@gamil.com
Trip type	Choice 1
Flight Category	Choice 1
From	Choice 1
To	Choice 1
Departure Date	14-Oct-2026
Return Date	17-Oct-2026
Travelers	2
Travel class	Choice 1
Fare type	Choice 1
Special Request	good

Output

Result:

Thus, a simple cloud-based Flight Reservation System was created successfully using Zoho Creator to demonstrate SaaS. The application collects passenger and flight details and stores the reservation records in the cloud.
