Experiment 11

Online Supermarket System using Zoho Creator (SaaS)

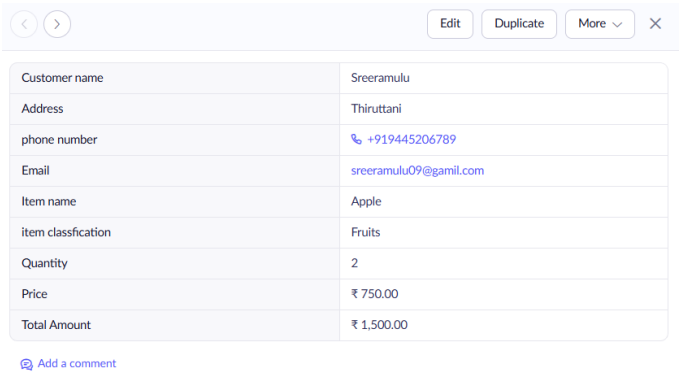

Aim:

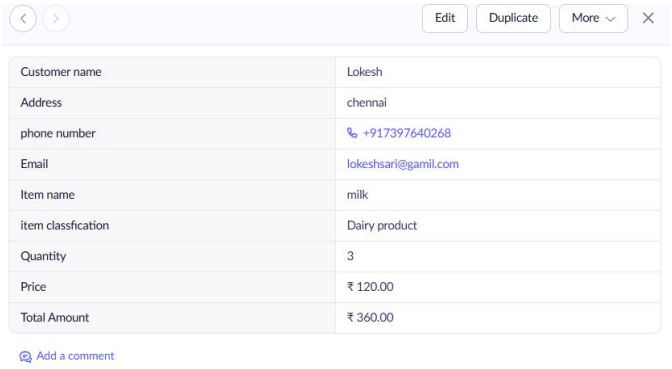

To create a simple cloud software application using Zoho Creator to manage customer details, items, quantities, and item classification.

Procedure:

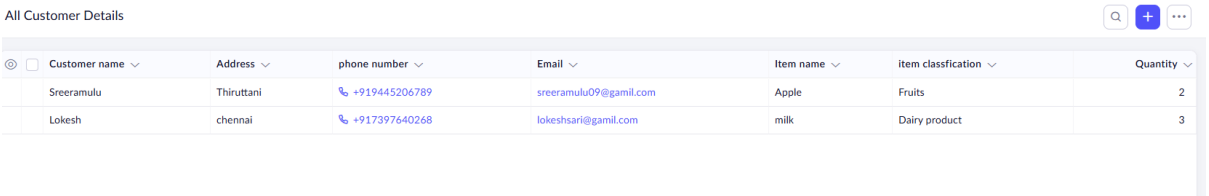

- ✓ Open Zoho Creator and create an application named Online Supermarket System.
- ✓ Create a form named Customer Details.
- ✓ Add fields for customer name, address, phone, email, item name, classification, quantity, price, and total amount.
- ✓ Set dropdown choices for item classification.
- ✓ Enter sample customer and item details.
- ✓ Save the form and view the records in the report**.**

Input:

Output:

Result:

Thus, the Online Supermarket System was created using Zoho Creator to manage customer details, items, quantities, and item classifications, demonstrating SaaS (Software as a Service).
