Experiment 2

Property Buying & Rental System using Zoho Creator

Aim:

To create a cloud-based Property Buying and Rental System for Chennai using Zoho Creator to demonstrate Software as a Service (SaaS).

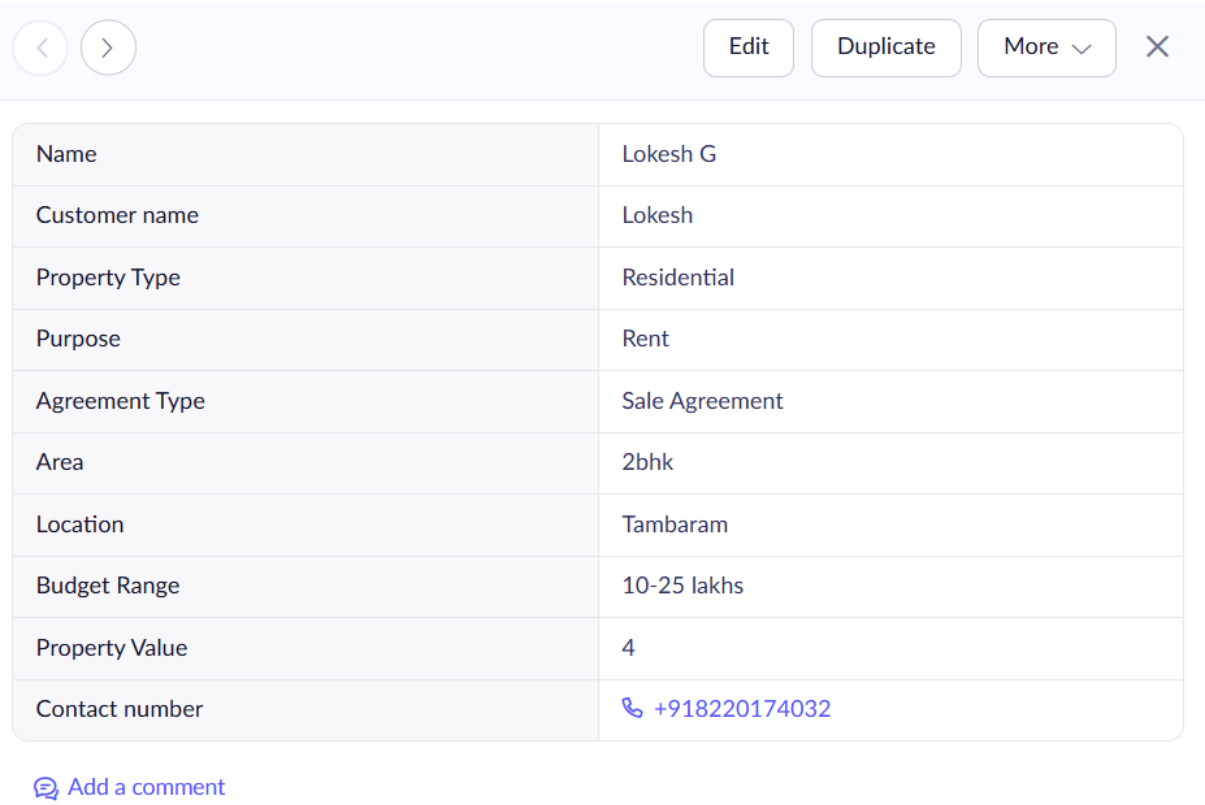

Procedure:

1. Open Zoho Creator and create a new application.
2. Name the application Property Buying and Rental System.
3. Create a form named Property Details.
4. Add fields for customer name, property type, purpose, agreement type, area, location, budget range, property value and contact number.
5. Configure the dropdown and radio-button choices.
6. Save the form and enter sample property details.
7. Submit the form and verify the saved record in the report

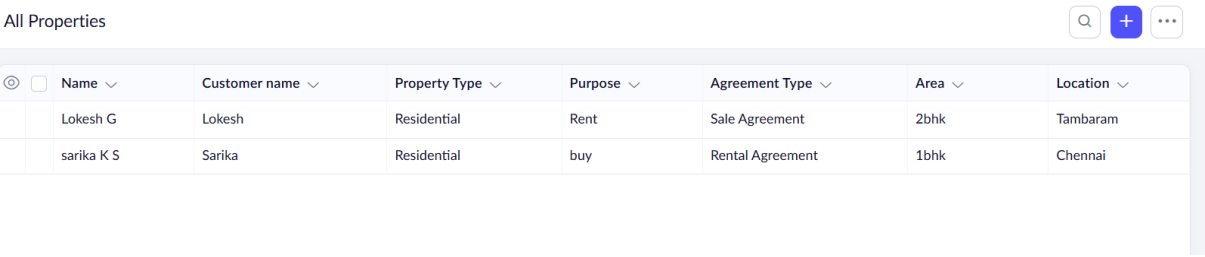

Input:

Name	sarika K S
Customer name	Sarika
Property Type	Residential
Purpose	buy
Agreement Type	Rental Agreement
Area	1bhk
Location	Chennai
Budget Range	Below 10 lakhs
Property Value	2
Contact number	+917395840269

Add a comment

Output:

Result:

Thus, a simple cloud-based Property Buying and Rental System was created successfully using Zoho Creator. The application collects property information and stores customer details in the cloud.
