Experiment 7

Students Attendance System using Zoho Creator

Aim:

To create a simple cloud-based Students Attendance System using Zoho Creator to demonstrate Software as a Service (SaaS).

Procedure:

1. Open Zoho Creator and create an application named Students Attendance System.
2. Create a form named Student Attendance.
3. Add fields for student name, register number, course, attendance date, attendance status, course attendance, OD request, grade and attendance percentage.
4. Configure the dropdown and radio-button choices.
5. Save the form and enter sample student attendance details.
6. Submit the form and verify the saved records in the report.

Input:

Edit | Duplicate | More

Student Name	Priya Sharma
Register Number	234567
Course	ECE
Attendance date	16-Oct-2026
Attendance Status	Choice 3
Course Attendance	80
OD Request	no
Drop Down	Choice 2
Attendance Percentage	87.00

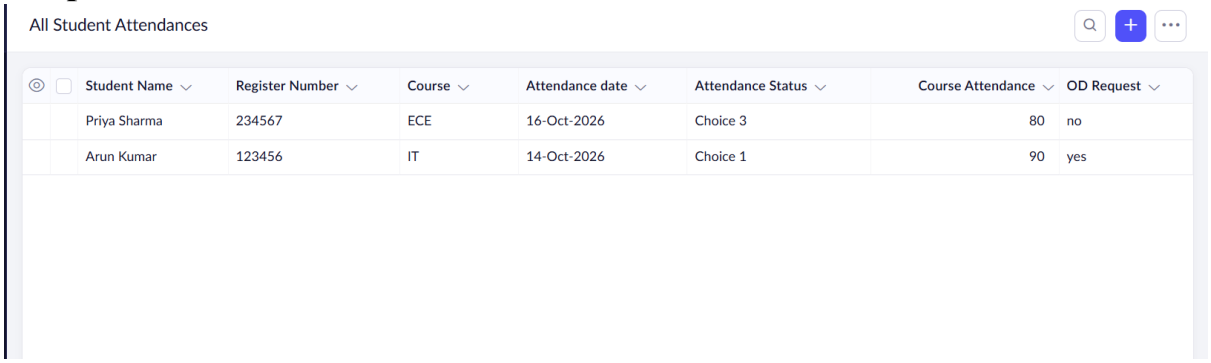

Add a comment

Edit | Duplicate | More

Student Name	Arun Kumar
Register Number	123456
Course	IT
Attendance date	14-Oct-2026
Attendance Status	Choice 1
Course Attendance	90
OD Request	yes
Drop Down	Choice 1
Attendance Percentage	90.00

Add a comment

Output:

Student Name	Register Number	Course	Attendance date	Attendance Status	Course Attendance	OD Request
Priya Sharma	234567	ECE	16-Oct-2026	Choice 3	80	no
Arun Kumar	123456	IT	14-Oct-2026	Choice 1	90	yes

Result:

Thus, a simple cloud-based Students Attendance System was created successfully using Zoho Creator. The application stores student details and attendance records in the cloud.
